

## WHAT IS GEOCACHING?

Geocaching is a 21st century treasure hunting game played all over the world. The goal is to find physical containers - called geocaches - using the free geocaching app. When you find a geocache, you sign your name on the logbook and write about your experience online. Geocaches come in all shapes and sizes. They can range from nanos (smaller than a dime) to ammo cans and 5-gallon buckets. The larger the container, the more swag and trinkets you'll find!

## RULES & GUIDELINES

Always place the geocache in the exact spot you found it. Never remove or hide the geocache in a different location. If you take a trinket from the geocache, you must leave something of equal or greater value behind. Do not keep any trackable item that says "Trackable at Geocaching.com." Instead, move trackables from cache to cache.

## TRACKABLES

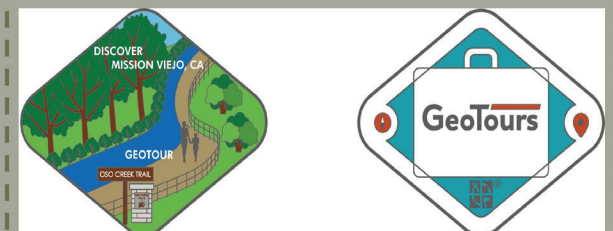

Trackables are a unique type of trinket item that are not meant to be kept. They move from geocache to geocache and have a specific goal in mind (such as visit Disneyland). All trackables have a unique 6-digit code that allows you to track their progress and location. There are two types of trackables: geocoins and travel bugs.

A geocoin is a coin with a unique design while a travel bug is a dog tag that can be attached to anything, usually a key chain.

## WANT A FREE GEOCOIN?

Record the code word in **at least 24** of the "Discover Mission Viejo Geotour" geocaches using the passport on the back of this pamphlet. When finished, turn in your passport at the Norman P. Murray Community Center (24932 Veterans Way) to receive a Discover Mission Viejo Geocoin (while supplies last). **ONE** geocoin per username.

Activate your geocoin at:
