

The Recreation Centers are GOING GREEN!

Get your FREE workout towel now!!!

To reduce energy and water usage and decrease costs, the Recreation Centers will soon be discontinuing its towel service and will no longer supply workout towels in the facility.

A complimentary workout towel will be provided to our members in the upcoming weeks for a limited period of time. We encourage you to remember to pack a workout towel with your fitness gear. Sanitary wipes will be provided for members to use to disinfect machines between usage.

1. To improve air quality and prevent pollution, we are purchasing eco-friendly cleaning supplies and eliminating the use of all aerosol spray cleaners.
2. To reduce paper waste, we are creating multiuse marketing options and decreasing the amount of printed materials and flyers.
3. To save trees and other natural resources, paper products such as toilet paper, paper towels, seat liners, and copy paper contain 30% or higher recycled-content materials.
4. To save water, we have installed low-flow toilets, faucets, and showerheads and irrigate landscaped areas with reclaimed water.
