

Summary of Ordinance 19-328

Each year the City Council requests recommendations from the City's department heads to provide suggestions as to which portions of the Municipal Code may require update to conform to current state and federal laws, or community and City needs. The updates within Ordinance No. 19-328 provide for amended definitions to better clarify the intents of the various laws within the Municipal Code.

Changes include updated definitions relating to solid waste and water quality, use of City recreational facilities, conforming the City's cannabis definitions with federal law, and clarifies issues regarding prohibited vertical improvements. This Ordinance provides the most efficient method for making these necessary updates to the City's Municipal Code.
