My ideas are as follows: _____

Comments regarding Map A distributed by the City of Mission Viejo on Dec 14, 2021.

The city attorney has talked frequently about Hispanic voters and how it is not possible to provide a majority district for that group. However, in the Districts in Map A you have no district with even 20% of CVAP for Hispanics. Note that this map has District 1 with 20.5 % of CVAP for Hispanics. My suggestion is that the Map selected should include one District with an Hispanic CVAP of nearly 20%

Also in Map A, it is obvious that the city carefully structured the Maps so that the 4 incumbents running for election in 2022 are each in a separate district. There is nothing in the guidance for setting District Boundaries that there should be a priority or even consideration for taking care of incumbents while setting District Boundaries. This is another reason why maps other than Map A should be given careful consideration.

Please continue on back side if you need additional space.
