Plan ID	Author	Comments Specific to Proposed District Plan Submitted*
A	CDR	
B	Ron Harris	<p>The Excel worksheets and the supplied maps were easy to work with.</p> <p>I was surprised by the 7% population spread in the proposed Plan A. Using the Census data and the contiguity requirement I was able to modify Map A to achieve a much lower spread. I'm assuming the large spread in the proposed Map A was due to the inclusion of other factors such as utility providers and school districts.</p> <p>These other entities already have their own boards elected by citizens and/or subject the oversight of the elected county, state and federal government officials. I would prefer that Mission Viejo Council representation spread not be increased to overlay the boundaries of these other entities. In the rare case of a problem serious enough that Council input was required the involvement of two or more Council members would be more powerful.</p> <p>I'm assuming the Council has, or will have, details of where factors other than population entered in the Center for Demographic Research's Map A recommendation. Is that the case? Some sort of narrative would be helpful in evaluating their recommendation.</p> <p>Using the supplied Excel worksheets, I reduced the 7% population spread with a modified Map A to a little over 1%. This required moving only six blocks to different districts. Two key moves were extending District 1 south along the canyon and incorporating the Lake block into District 3.</p> <p>These changes to only six blocks significantly reduce the population spread while maintaining most of original Map A at the expense of only slightly more complicated boundaries.</p>
C	Walt Lawson	<p>Comments regarding Map A distributed by the City of Mission Viejo on Dec 14, 2021.</p> <p>The city attorney has talked frequently about Hispanic voters and how it is not possible to provide a majority district for that group. However, in the Districts in Map A you have no district with even 20% of CVAP for Hispanics. Not that this map has District 1 with 20.5 % of CVAP for Hispanics. My suggestion is that the Map selected should include one District with an Hispanic CVAP of nearly 20%</p> <p>Also in Map A, it is obvious that the city carefully structured the Maps so that the 4 incumbents running for election in 2022 are each in a separate district. There is nothing in the guidance for setting District Boundaries that there should be a priority or even consideration for taking care of incumbents while setting District Boundaries. This is another reason why maps other than Map A should be given careful consideration.</p>
D	Mary Michel	NONE
E	Ari Vela	NONE
F	Cathy Schlicht	<p>Populations are within 10% spread.</p> <p>District map is based on school district boundaries as closely as possible.</p> <p>District 1 &amp; 2 represent SVUSD.</p> <p>District 3-4-5 represent CUSD.</p> <p>Mr. Shenkman had preferred school district boundaries.</p> <p>Our school districts are the largest &amp; most important Communities of Interest for our citizens.</p> <p>Life Revolves around our children &amp; their schools.</p>
E-1	CDR/Council	January 25, 2022 Council-directed revisions to "smooth" Plan E.
A-1	Mayor Wendy Bucknum
