

MISSION VIEJO

June 15 - July 31
**BABIES
AND
TODDLERS**

Birth to 36 months

HOW IT WORKS:

1. Register your child beginning June 15.
2. Choose an activity from the board game and color in the circle when you have completed the activity with your child.
3. When you have finished all the activities, you have completed the game.
4. Return the completed board game to the library no later than July 31.
Your child will receive a board book (while supplies last).

As your child's first and best teacher, you can do five simple things every day to encourage your child to develop the skills he or she will need to become a reader: talking, singing, reading, writing, and playing.

We have designed the Summer Reading Program game to provide ways to engage in these five early literacy practices and have fun together.
